

By REBECCA HARDING DAVIS.

"No, Sir down. You at least must understand me." Uncle Ben, who had been edging his way, crutch and all, to the door, noiseless as a cat, stopped, holding it open, to wink and telegraph encouragingly to her behind Leonard's back. "It's tantrums, nothin' but tantrums," opening and shutting his wide mouth without a sound. "We men her all got 'em at times. Don't you mind, dear," and disappeared, to stomp up and down the boards shaking his head gloomily. Winny did not sit down. She

The freight flashed pleasantly at the homely little kitchen and about the girl; it seemed to show Leonard his honest place among men—work and love. It was a real life so far as it went.

"No," with a shiver. "Then you think"—

"How do you know that the man seen

work the Gray Eagle's Nest" will find a welcome in every Southern home. That it may be within the reach of every one, it is published at the LOW PRICE OF \$2, though a LARGE, HANDSOME VOLUME, BEAUTIFULLY ILLUSTRATED AND ELEGANTLY BOUND.

Mr. C. M. Bullitt sprained his ankle very severely while stepping out of the church Sunday night.

The Kickapoo Indian Medicine Co. after several weeks in this place will leave today for Jeffersonville, Ind.

Rock Lick creek in this county has been declared a navigable stream. They are getting in his work close to home.

All persons indebted to R. E. Moorman & Co. are requested to call immediately and settle their accounts and save costs.

Co. are requested to call immediately and settle their accounts and save costs.

Meers Chas. Swigert and Martin Belen are utilizing the gas from the Cloverport Mineral Co.'s well No. 2, in their business.

Dr. W. B. White, Jr., and family, of Tell City, passed on the boat Monday night enroute to Louisville, where they will make their home in the future.

Dr. S. R. Addison has bought out Dr. W. B. White's dental office. The doctor is a hustler and can put as good a filling in a man's tooth as any dentist.

The directors of the Commercial Club met last Wednesday, reorganized, added new life, and went into the push thing right along. The new board means business and some good work for the town will be the result.

Mrs. Dora Braisher, wife of Wm. Braisher, deceased, of Stephensport, died at her home in Woodford county yesterday morning.

Miss Eliza Braisher, her sister-in-law, left on the 10 o'clock train yesterday to attend the funeral.

Rev. George Holcomb, who has been holding a protracted meeting in this place for several weeks, left Monday for Bowling-green, where he will hold a mission meeting.

Rev. Holcomb is an excellent preacher and did good work for the church in this city.

Dr. W. B. White, who for a number of years has been a resident and a successful dentist of this city, removed with his family to Louisville Monday night, where he will reside in the future and continue his profession. He has rented handsome quarters on Fourth avenue and opened a splendid office.

Mr. John T. DeLanette, of Hardinsburg, was in town yesterday and handed us a dollar for a new subscriber. If all of our old subscribers, like Mr. DeLanette, would do one new one along with their own, it would swell our list. And the result of this we could put in steam power, enlarge the paper and otherwise improve it.

The body of Charles Pard, a watchman on the construction train of the L. & N. W. railroad, was found in Skillingham's branch, at the east end of the city, last Sunday. It is not known how he came by his death, but it is supposed that he fell from the train while it was passing over the bridge.

It is estimated that there was foul play connected with his death. What is this and who the parties are, has not yet been developed. An inquest was held Monday night before Judge Abel, and the verdict of the jury was that he came to his death by some unknown cause. Pard was said to be a quiet, inoffensive, hard-working sober man and lived in New Albany, Ind.

The citizens of Irvington were in high tide last week, over the appearance of two gentlemen in their town looking out a site on which to erect a large flour mill. The gentlemen came from some of the upper counties, and are experienced mill men with plenty of capital. They were chartered by Col. Edgar Bennett. Mr. Bennett after they took over the country adjacent to Irvington, and pointed out to them some of the magnificent farms in that section that grow such large quantities of wheat.

They country and the town of Irvington, the kind of a mill which they propose to put, will be a first-class one, and will cost about \$200,000. Irvington proposes to give the ground and aid in the enterprise by private donations, and in this way they think they will secure the structure.

The mill is doubtless to be a good point at which to locate it.

BRANDENBURG TO BOOM.

Her Seven Pretty Hills Will Be Converted into a Thriving Populous City.

Kende County's Great Territory of Valuable Natural Resources.

(Courier-Journal.)

Brandenburg, Ky., March 15.—This sleepy old town, located on its seven hills, like ancient Rome, has awakened to its importance and has organized a commercial club for the purpose of developing the inestimable resources lying under its nose.

As stated in the Courier-Journal last week, a committee of the substantial business men of Brandenburg visited Louisville to discuss the propriety of such a step with the Louisville Commercial Club. The result of their visit was the determination to organize a club. With this object in view, a meeting was held at the court-house in Brandenburg last night, which, notwithstanding the rain was pouring in torrents, brought out a large number of the most wide-awake and substantial business men of the place.

The meeting was called to order by Judge O. C. Richardson, temporary chairman. The committee that had visited Louisville, through its chairman, Judge Woolf, made a report of its investigation in Louisville, and spoke in the highest terms of the encouragement received from the Louisville Club. The committee's report was listened to with much interest, when, by way of getting the matter in shape, the Secretary was requested to present a paper among those present to see how many members might be obtained.

Nearly every man signed his name, and in a few minutes the Secretary reported some twenty-five members. On motion, the club then proceeded to elect officers, which resulted as follows:

Judge O. C. Richardson, President; Dr. D. C. Pusey, First Vice-President, and Judge J. F. Woolf, Second Vice-President.

The hour being late, the election of Secretary and Treasurer and Board of Directors was postponed to next meeting.

The interest being manifested by the business men of Brandenburg and surrounding communities is certainly a promising omen. Many of the prominent men of the county have signified their intention to join the club, and would have been present last night but for the incessant rain.

The development of this rich section is not only of interest to Brandenburg, but the entire county. There are resources here sufficient to employ millions of dollars' capital, and lying comparatively idle. Why can't the business men of Louisville see it?

A few have discovered it and are making arrangements to utilize it. Salt works, a part of the material, which is already on the grounds, will be erected as soon as the weather will permit, capable of making 100 or more of soda ash.

This is but a drop in the bucket, but, as all things must have a beginning, this is a start in the right direction and will soon lead to other establishments.

A soda-ash plant is to be located here in the future. The company, as I understand, is already formed for this important enterprise. Soda-ash, its value and its uses, few people understand. There is but one establishment for its manufacture in the United States—Syracuse, N. Y.—and the cost on soda-ash imported into the United States amounts to about \$80,000 annually. This will give the reader some idea of the commercial value of the article, and when the fact is recognized that everything for its manufacture, even to the fuel for making it, except one or two chemicals, the cost of which is negligible, is found here within the space of a square mile. It may readily be seen how much cheaper it can be manufactured here than at Syracuse, where they have to buy their salt water, their time and their fuel, and transport it a long distance to that. There is no material going to waste here as soda-ash enough to supply the United States and save to Uncle Sam that \$80,000 import duty. Why not let the old gentleman keep that snug little sum in his pocket, and make our soda-ash here in Meade county? I am told that the salt water it takes to make 100 barrels of salt will make the same quantity, or even more, soda-ash. And suppose of that, there is salt water enough now going to waste down the wells and down the drain away on the ground, it is affirmed by salt makers, to make 3,000 barrels of salt daily.

As an illustration of the value of the salt water in this section, may be compared the manufacturer of salt in Michigan, where they have discovered a fine vein of rock salt three thousand feet below the surface, which they utilize by boring wells to it, filled with fresh water from wells bored for the purpose. The fresh water is pumped into the salt wells, where it remains until sufficiently impregnated with salt. It then runs out and is manufactured into salt, the fuel for which is purchased and transported from a distance. Now, if salt can be profitably manufactured under circumstances like these, it is the same in Meade county, made from these well-flowing salt wells, without any artificial means and with natural gas for fuel, which is a great deal of it at least, being wasted.

I have made quite a tour through the gas fields since I came here. It is the first time I have been in the gas region for more than a year, and many new wells have been put down in that time. I have taken trouble to count the number of wells that have been sunk altogether, and find there have been about seventy-five, at least fifty of which produce nothing but gas.

This is a rare and valuable gas, and it is a pity that it is not being utilized to the full extent. It is a pity that it is not being utilized to the full extent. It is a pity that it is not being utilized to the full extent.

A MERE SONG!

That about expresses what we now get for our "own make" Winter Clothing, because we have already pruned the profits clean, and because we are drawing near towards the tail end of the season. What we have left in Stock Overcoats and Trousers are at the disposal of the people at almost their own price. Persons with a speculative turn of mind will find an opportunity now to buy their next winter's outfit at about the cost of the material. Our New Spring Stock is now complete and ready for inspection.

Buy one of our Elegant Spring Overcoats which we have just made up. They are the very thing you will need for the next three or four months. All colors and all prices.

JULIUS WINTER & CO.

"Old Reliable" Clothiers
S. E. COR. THIRD AND MARKET STS., LOUISVILLE, KY.

MOOLEYVILLE.

Mr. Mellina Egart has been quite ill with la grippe.

Little Clide, a three-month-old boy of Preston and Maude Still, is quite sick.

Mr. Bob Readman is slowly recovering from a long and painful attack of typhoid fever.

Miss Lena Gilliland, of Preston, was the guest of Miss Julia Cunningham last Sunday.

Mr. F. G. Parr is making quite a success of raising fine chickens. Having engaged in the business about three years ago, he now receives mail orders weekly for chickens at \$3 a pair and eggs at \$2 per dozen.

Mr. Frank Burren, of Bowling Green, has been visiting at and near this place for several weeks. He and his partner, Mr. Burch, are well pleased with their new home at Bowling Green, and report that they are doing a good business with the New York Store.

Johnnie Eder's foot is getting well fast. He was playing with a gun, trying to kill some birds, when the gun went off and he shot himself through his foot. No shot lodged, and consequently he will soon recover.

Winter has come at last. Two weeks ago people were thinking of planting gardens, and now they are getting their winter dress and breaking open the dead blossoms to see if there is a living peach to be found. We earnestly hope this spring will not open with such a rain as old Mooleyville has had last.

It was equal to the Johns in town food.

Convincing Proof.

In many instances it has been proven that B. B. B. (Bottled Blood Balm), made by Blood Balm Co., Atlanta, Ga., will cure almost all the worst plagues, even when all other treatment fails.

A. V. Brunson, Atlanta, Ga., writes: "I had twenty-four running sores on one leg which had been open for three weeks, and I believed I actually swallowed a barrel of medicine, in vain efforts to cure the disease. When I tried B. B. B. I finally got the cure. I experienced a change, and my dependency was somewhat dispelled. I kept using it until I had taken sixteen bottles, and all the sores, rheumatism and all other horrors of blood poison have disappeared, and at last I am robust and well again, after an experience of twenty years of torture."

Robert Mack, Macon, Ga., writes: "My rheumatism was pronounced a tertiary form of syphilis. My face, neck and shoulders were a mass of corruption, and finally the doctors telling my shell bones. Mr. Brunson, I am a man of many ailments. I lost flesh and strength, and life became a burden. When I used B. B. B. I felt a new life. I was pronounced well. Hundreds of more can be seen on my face. I have now been well over twelve months."

TOBINSPOUT, IND.

The writer of the article in your paper of March 9th, concerning the punishment of Sam Groves, claims that he told the truth while I told lies. Let me inform the readers that said writer has been lying since the day he wrote that article. If he will inquire of some of our prominent people around here, who saw the child just after the punishment, that they will enlighten him.

Any more communications from said writer will be considered beneath my notice for when I am to be accused of telling lies, I hope it will be by one who has the reputation of telling the truth, especially when for publication.

THOMPSON, IND. March 13th, 1890.

EDITOR.—I notice a controversy in your paper relative to the punishment of a child by assistant teacher of our schools. I have to say that the statements made by your first correspondent were the truth, as can be proven by over twenty persons.

I am truly yours, K. K. GROVES.

To Whom It May Concern.

Having moved to Louisville for the purpose of practicing dentistry (but will be in Cloverport at stated times), I have sold out my office to Dr. S. B. Addison, who will conduct the business of my old office in Cloverport. Dr. Addison has practiced dentistry for a number of years. I have seen considerable of his work, and can recommend him to the people of Cloverport and Breckenridge county not only as being a good dentist, but as a safe and reliable man, one that you can depend on what he tells you. I hope you will give him a trial and be convinced.
